Education

SRM Institute of Science and Technology – 9.2 CGPA 2023 – 2027
B.Tech in Computer Science and Engineering (Big Data Analytics) Kattankulathur, Tamil Nadu

St. Maria Goretti Inter College – 87.5% 2022 – 2023
Class XII (ISC) Bareilly, Uttar Pradesh

St. Maria Goretti Inter College – 91.2% 2020 – 2021
Class X (ICSE) Bareilly, Uttar Pradesh

Experience

Data Analytics Virtual Intern Jul 2025
Deloitte Australia (Remote)

- Analyzed 10,000+ records to identify 15+ trends and generate data-driven insights for business decision-making.
- Built an interactive Tableau dashboard reducing reporting time by 40% and enabling real-time data visualization.
- Performed data cleaning, transformation, and basic ETL processes using Excel, contributing to 5 business recommendations.
- Applied exploratory data analysis and statistical methods to derive actionable insights from complex datasets.

Technologies: Tableau, Excel, Data Analysis, Data Visualization

Projects

HireSense - Semantic Resume Job Matching Platform Jan 2026

- Processed unstructured resume data using NLP for feature extraction and analysis.
- Designed a semantic similarity system using TF-IDF, Word2Vec, and Sentence Transformers for resume job matching.

Technologies:Python, NLP, Scikit-learn, Sentence Transformers, Pandas, NumPy

CareerCraft - AI-Powered Career Guidance Platform Nov 2025

- Developed a data-driven application using Flask and React with structured data processing and REST APIs.
- Built a recommendation pipeline using Generative AI and MySQL for data analysis and personalized insights.

Technologies: Python, Flask, React, MySQL, Groq API

CloudShelf - Cloud-Based E-Library April 2025

- Designed normalized database schemas and wrote optimized SQL queries for efficient data retrieval.
- Built backend data workflows handling multi-entity CRUD operations and multi-user data consistency.

Technologies: Python, Flask, MySQL, HTML, CSS, JavaScript

Technical Skills

Languages: Python, SQL, JavaScript, Java
Data Analytics: Pandas, NumPy, Data Processing, Data Visualization
Databases: MySQL, MongoDB
Web Technologies: HTML, CSS, JavaScript, AJAX, JSON
Frameworks: Flask, React, HTML, CSS
AI/ML: Classification, Regression, Clustering, NLP Basics, Generative AI
Core Concepts: Object Oriented Programming, Data Structures Algorithms, DBMS, Operating Systems
Tools: Git, GitHub, VS Code, Jupyter Notebook, Docker, Tableau

Certifications & Awards

Winner - Mini Mathematical Contest in Modeling (Mini-MCM), SRM IST

Best Team Award HackPick 2025 (24-Hour Hackathon)

Introduction to Machine Learning - NPTEL (IIT Kharagpur)

AWS Certified Cloud Practitioner - Amazon Web Services

Database for Developers Certification - Oracle
